Career Opportunity

The CSIR (Council for Scientific and Industrial Research) is a leading scientific and technology research organisation, implementing projects throughout Africa and making a difference in people's lives.

Senior Researcher: ICT for Earth Observation

An innovative data computing expert

The ICT for Earth Observation Research Group is seeking a Senior Researcher with experience in computer science and a passion for Geographic Information Science and Earth Observation. A Master's degree or equivalent in Computer Science, at least 3 years' relevant research experience and a relevant publication record are essential.

You will be required to give your initiative free rein to develop data mining and advanced data processing infrastructures for large volumes of spatio-temporal data, including leadership to junior staff, the development of software and publication of research results. (Ref. 5320)

Should you be interested in this Pretoria-based position, please go to www.csir.co.za/apply.php select the relevant reference number, complete the application form and attach your CV.

Closing date: 30 September 2011

Please note that feedback will be given to short-listed candidates only.

Should you experience any problems in submitting your application, please contact the CSIR Recruitment Centre at Recruitmentqueries@csir.co.za (please do not submit your application to this mailbox).
