Subject: Support letter for MiniMapathons proposal coordinator

I, the undersigned Venkatesh Raghavan, President, OSGeo, confirm I am willing to support the activities of the project proposal MiniMapathons, should this be selected for funding.

This project proposes a visionary idea which can have incredible impacts on people's life and at the same time promotes the social and societal role children can play in an unprecedented way. Organization name expresses its full support to the proposal and the consortium. Add anything else here if you like.

I am fully aware that the project has been submitted to the call "Polisocial Award" by Politecnico di Milano.

Yours sincerely,

Venkatesh Raghavan  
President,  
Open Source Geospatial Foundation (OSGeo)
