Massimiliano Cannata
Professor, SUPSI in ingegneria Geomatica
Responsabile settore Geomatica
Istituto scienze della Terra
Dipartimento ambiente costruzione e design
Scuola universitaria professionale della Svizzera italiana
Campus Trevano, CH - 6952 Canobbio

Dear Professor Massimiliano Cannata,

On behalf of the UN OpenGIS Initiative, we would like to formally invite you at the Second Technical Workshop of the UN OpenGIS Initiative, which will be held in Seoul from November 7-th to 11-th. The UN OpenGIS Initiative aims developing an enterprise GIS using free and open source geospatial solutions in support of UN Peace Operations. And the objectives of the workshop are to report the progress, review, discuss the current issues, and develop the future plan of the UN OpenGIS Initiative. Your participation to the workshop would be fundamental to the success of the workshop as a Strategic Board member of UN OpenGIS Initiative representing OSGeo.

We look forward to seeing you at the workshop.

Best Regards,

Ki-Joune Li 
Co-Chair of the UN OpenGIS Initiative
Professor, School of Electrical and Computer Engineering
Pusan National University, Pusan 609-735
South Korea
