Request for support QGIS codesprint and conference in Essen and Nødebo 2017

3 APRIL 2017

FOREST AND LANDSCAPE COLLEGE

This year QGIS will merge into version 3.0. This is a huge step and hard work.

NØDEBOVEJ 77A

We are having 2 main codesprints – the first in Essen and the second in Nødebo. At the first codesprint, it is ‘just’ hard work with 26 participants. 4 days at the Linuxhotel in Essen.

DENMARK

At the second codesprint we will have 10 days of conference, workshops and codesprint at University of Copenhagen – Nødebo Campus. We hope for the same success as in 2015 with 153 participants from 26 countries.
