

OSGEO board

QGIS Summer camp-, Contributor meeting and Conference - application for sponsorship

12 JANUARY 2020

For the 3rd time we are inviting the QGIS community to join in Nødebo – Denmark.

FOREST AND LANDSCAPE COLLEGE

Communities are meeting, working and developing all year. Sometimes during worktime and sometimes in the holidays. Travelling away from home. It's wonderful to meet the others in the community. But – mostly someone are left back home.

NØDEBOVEJ 77A

DK-3480 FREDENSBORG

DENMARK

In the QGIS community, we are trying to be inclusive: Inviting the families to join in. Be a part of the community.

lfi@ign.ku.dk

This year we have managed to book 60 beds for 3 weeks at the Forestry Campus. We hope – we know- more people are attending. Including children.

REF: LFI

This gives us possibility to become a place not only for work, but for family life too. Breakfast, coffee breaks, lunch and dinner in the common dining hall. In between hard work, fun in the forest, the lake, trips to cultural sites and just relaxing playing a board game.

We know- this is an event everyone is looking forward to join. We hope other communities will try to do the same.

Travelling to these events can be expensive. Some of the participants from distant places are also giving workshops, and get paid. In this way they can afford travel expenses.

We try to do the summer camp on a low budget. Hiring local students to drive the busses, being tourist guides. Our own canteen are cooking delicious and healthy meals, and the accommodation is shared rooms or shelters.

We hope to get sponsors as written in the budget, but we are also applying OSGEO for a sponsorship, so we can include all. Hope for 5000 USD for this event.
