Agenda Items

1. Update of OSGeo budget request for gvSIG Project

Action Items

1. The meeting is set to update the request of the budget for gvSIG Project.

The initial budget included bug fixing for the new gvSIG Desktop version (gvSIG 2.6), that is going to be released in the next weeks when latest bugs are completely fixed. This new gvSIG version includes a complex Version Control System and several new editing tools that have taken an extra work on bugs fixing. Apart from it, the 19th International gvSIG Conference will be held on November 29th-30th, with their corresponding webinar platform and organization expenses.

The PSC has decided to request this budget to OSGeo, with an amount of 5000 USD for the 2023:

- Organization and webinar platform of 19th International gvSIG Conference: 1,000 USD
- Preparation of free online courses: 500 USD
- gvSIG bug fixing: 3,500 USD

In witness thereof, the gvSIG Project Steering Committee sign this document
