

# FOSS4G:UK Local 2022

OSGeo:UK is running a one day conference on **Thursday 17th November 2022**. It will be a hybrid event with the conference run over nine venues nationwide including Birmingham, Cardiff, Glasgow, Leeds, London, Manchester and Southampton. This reduces the need to travel whilst allowing participants to meet up face to face post pandemic. At the conference we aim to showcase the very best in GIS Open Source and have secured three industry leading keynote speakers, Anita Graser, Tim Sutton and Regina Obe. The call for papers has been released and we know that these events will be extremely popular. For more details please check out the website at <https://uk.osgeo.org/foss4guk2022local/>.

OSGeo:UK is entirely funded from donations and sponsorship. In order to maximise attendance we do not want to impose an entrance fee on participants. Therefore we're looking for sponsors to enable us to make **FOSS4G:UK Local 2022** a great success and to allow OSGeo:UK to continue to provide financial support to open source projects. We've created the following sponsorship packages for the event.

## FOSS4G:UK Local - National Sponsor

As a National Sponsor you are helping us deliver the event in its entirety. Your donation of at least **£1000** will go towards our logistics, organisation, venue costs, administration and enabling OSGeo:UK to continue to provide financial support to open source projects. As a National Sponsor you will gain the following benefits:-

- logo added to all promotional materials and listed as a National Sponsor
- logo and company name added to introduction and other materials at all local events
- guaranteed speaking slot at a local event of your choice discussing how you use Open Source GIS
- banner and promotional material placement at one or many local events

## FOSS4G:UK Local - Local Event Sponsor

As a Local Sponsor you are helping us deliver an event locally. Your donation of at least **£400** will go towards catering, venue costs and administration. As a Local Sponsor you will gain the following benefits:-

- logo added to all promotional materials and listed as a Local Sponsor
- logo and company name added to introduction and other materials at nominated local event
- guaranteed speaking slot at the location you are sponsoring discussing how you use Open Source GIS
- banner and promotional material placement at the location you are sponsoring

## FOSS4G:UK Local - Business Supporter

As a Business Supporter you are helping us deliver the event in its entirety. Your donation of at least **£100** will go towards our logistics, organisation, venue costs, administration and enabling OSGeo:UK to continue to provide financial support to open source projects. As a Business Supporter you will gain the following benefits:-

- logo added to all promotional materials and listed as a Business Supporter
