Free and Open Source Software for Geospatial 2007
September 24–27, 2007
Victoria Conference Centre, Victoria, Canada
www.foss4g2007.org

JOIN THE WORLD IN VICTORIA, CANADA
The FOSS4G conference brings together the people and companies who create, use and support open source spatial software. Meet the developers behind the software, learn from organizations implementing open source GIS, take advantage of hands-on workshops and labs to learn!

WORKSHOPS AND LABS
- Hands on instruction
- Mapserver, MapGuide, Google Earth
- PostGIS, QGIS, GRASS
- Java, Python, PHP

PRESENTATIONS AND EXHIBITION
- 120 presentations
- Case studies, development news
- Exhibition hall
- Demonstration theatre

COMMUNITY NETWORKING
- Reception and evening pubs
- Developers' Code Sprint
- Birds-of-a-Feather sessions

The call for presentations is open until June 29, 2007. For program information, registration, accommodations, or to submit a paper, go to www.foss4g2007.org or contact info@foss4g2007.org
