

Seminar on

Open Source Software in Geoinformatics

September 8, 2006

Co - Organisers: AIT & AgIT

Geoinformatics technologies are very useful for planning, development and management. Most of the applications relate to using remote sensing data processing and creating database for GIS (Geographic Information Systems).

Topics

Free and Open Source Software in Geoinformatics
Using Open Source for Web GIS
Application of Geo-Opensource software in water resources, forestry, planning and management, tourism, disaster mitigation

Organising Committee

Dr. Nitin Kumar Tripathi, Organising Secretary, Asian Institute of Technology, Thailand
Dr. Kiyoshi Honda, Technical Coordinator, Asian Institute of Technology, Thailand
Dr. Phisan Santitamnont, Program Coordinator, Chulalongkorn University, Thailand
Dr. Venkatesh Raghawan, Osaka City University, Japan
Mr. Sarawut Ninsawat, Osaka City University, Japan

Tentative schedule

Time	Program
9:00 – 10:30 Hrs	Opening Ceremony and Key Note
10:30 – 11:00 Hrs	Tea
11:00 – 12:30 Hrs	Technical Session - 1
12:30 – 13:30 Hrs	Lunch
13:30 – 15:00 Hrs	Technical Session - 2
15:00 – 15:15 Hrs	Tea
15:15 – 16:30 Hrs	Panel Discussion
16:30 – 17:00 Hrs	Closing Ceremony

Who should attend

Academics working in Geoinformatics or using it in other applications. The seminar is intended to initiate a platform for exchange of ideas and facilitate operationalising Open Source software for Geoinformatics related applications.

Contact Information

Dr. Nitin K. Tripathi,
Organising Secretary
Remote Sensing and GIS FoS,
School of Engineering and Technology, Asian Institute of Technology
P.O. Box: 4, Klong Luang, Pathumthani 12120, Thailand
